VOLUME XXVIII NO. 35

GLEICHEN, ALBERTA, WEDNESDAY NOVEMBER 14, 1934

SUBSCRIPTION \$2.00 PER YEAR

## TOWN FATHERS IN REGULAR MONTHLY SESSION

The town council held a regular session one evening last week and went through a lot of business before they adjourned. Wm. Service informed the councillors he had purchased the Patterson house and barn in block 9, and asked permission of the council regarding the moving of his house and taking down the barn and building a blacksmith's shop on the north west corner of the property. He also asked that he might consider erecting a service station on the corner next to the highway. This property, according to the zoning by-law was in the residential district and could not be allowed to be built, therefore the council informed Mr. Service that it was impossible to comply with his request. He was informed that there were several vacant lots in the industrial area that could be used for his purpose.

The question of vacant lots with accumulated taxes being allowed to revert to the town through the recovery proceedings arose. As an example it was noted in one case where there was a couple of vacant lots were paid as long as the lots were of use. At the present time the lots are of no use and the taxes are in arrears. The councillors found that this does not prevent the town from taking proceedings to collect the taxes on the vacant property if they so desire. There were several parallel cases over the town.

The secretary informed the council that C. W. Harrison had come to take away the buildings and fences which he had arranged to purchase from A. V. Cocks. Mr. Murray had gone up to the property with Mr. Harrison and he was allowed to take fence around the hospital proper property and the buildings in the rear. The fence around the garden was to be left to protect the trees and the garden staff. The fence on the lots at the rear was on J. O. Boggs's property and Mr. Harrison was not entitled to take it even though A. V. Cocks had paid the fence at his own expense. There was an inquiry about this property for use as an auto camp. The council stated they were not in a position to do anything with the property as it had not yet come into the possession of the town through tax recovery proceedings.

The secretary stated no further word had been received, the new power franchise. He was instructed to again take up the matter and find out what was being done. The water in the old well had been analysed but the report was not yet in. The old well had been fixed with a new pump unit and it was reported that it was capable of supplying about 3,000 gallons of water per day. If this is true it would appear to solve the water problem.

The secretary advised the council that the tank in the water tower had been painted inside, also the irrigation pressure tank had been painted inside. There was a can of paint left with which to paint the inside of the water tower tank. This is for the second coat and will be put on later on.

A letter had been received from R. S. McQueen asking for sewer extension on his street from Seventh Avenue. Instead of putting in sewer on part of a street it was pointed out that the proper procedure was to do a complete street at this cost could be distributed properly.

The council said that it was out of the question to extend the sewer this year as there was not enough money set aside for it and that the petition was not in order as it must be signed by the required number of people affected.

E. Gleichen had called at the office in regard to the well on the property next to Dr. Farquharson's residence, which had been filled in and stated he would like the town to fix it up as he was used to this water. The council stated they could not do anything about it.

A. Hartley had rented two lots to the end of the year adjoining his property on each side of his house. He intended to rent these lots as long as he lived there, and the rent paid was equal to the amount of the taxes. It was his intention to improve the lots on the east of the property by planting trees and making a garden on the front part and making a chicken run

at the rear. There was a well on the property. He would like some protection to go ahead and do this work. Nothing definite was decided on by the council.

A letter had been received from the Board of Trade asking the town to do something about the reckless driving of motorists on the main highway past the school. It was pointed out that the worst offenders were people driving grain trucks. It would be impossible for the town policeman to check up on all motorists as he would not be able to get his work done. It appears that speed on the highway is regulated to be that which is reasonably safe, taking into account the existing traffic at the time. However, no attention is paid to the signs and very few slow down when passing the school. There is very grave danger at the school at noon hour and at dismissal at 4 o'clock, as the children come out at the gate and cross the street at once. The council decided that a recommendation be sent the school board asking that they close the front gate leading out to the main highway and make the pupils come out and on the south side on account of the dangers on the main highway and if things get serious the town police committee will deal with it.

The question of taxes not consolidated came up. The secretary submitted a list of names of people in arrears who had not consolidated. A motion was passed that these people be advised regarding the present position of affairs of their properties and ask them to advise the council what they intend to do in making payments, otherwise the council will have to take it.

## LARGE NUMBER ATTEND MEMORIAL DAY SERVICES

The Remembrance Day service held Sunday morning in the Community hall and the memorial was attended by a large crowd. The day being ideal it had much to do with the attendance since there were people present from as far away as the Queens-own district.

Rev. Gilbert attended for the United Church; Adji, Suberland for the Salvation Army; Rev. J. House for the Anglican church and Father McCormick for the Roman Catholic Catholic church. Father McCormick delivered the memorial address in the hall, while Rev. House took charge of the service at the monument.

The 22nd Battery, C.A. in charge of Major Dodgson, M.M. was present in full dress; the Girl Guides in uniform under Mrs. D. Swain and Miss Phillips; Scouts, Cubs under J. Boyd, were present.

## CANADIAN WRITES OF CRUISE

Thoughts of travel to far places where hot sunny days make nature's covering seem more reasonable than fur coats are coincident with the sound of coal rattling into cellars in preparation for the long winter, and a very timely book that will be of great assistance to travel-minded people has just appeared. It is "—and ships— and sailing—war", by Alan Maurice Irwin, published by Macmillan.

Last year the author, who is a Canadian journalist, cruised around the world in the Canadian Pacific liner Empress of Britain, and this book is a collection of his impressions, a companionable, fascinating and amusingly written book which will be of great assistance to travel-minded people. It is a hard-working camera with becoming discretion, and captures in the manner of Kipling that the "Colonial" lady and Lady O'Grady are sisters under the skin.

The Mediterranean, Egypt, India—where the author lunched with Lord and Lady Willington, the Malay Peninsula, little known Cambodia, China, Japan—seen Hollywood, are amongst the places he writes about.

India, a country that has suffered much at the hands of those whose trade is writing, comes in for some rather harsh debunking; tropic nights and tropical seas come in for some rather good descriptions. Since, however, adventures amongst the simple, lonely people of India develop the amusing knowledge that the women of this modern Eden are very interested in seaplanes and other silly things.

S. Morgan-Powell, noted literary critic of the Montreal Star, writing of "—and ships— and sailing—war", says: "Mr. Irwin has the light, whimsical touch invaluable for such a record as this, since it enabled him not only to remember what he lived but to forget what is not worthy of remembrance." It also provides a most attractive medium by which to stimulate the interest of those who have hitherto been compelled for one reason or another, to enjoy their travels abroad vicariously.

On January 10 the Empress of Britain sets out again on her cruise around the world, visiting the ports that put of book in which he has written delightfully of also the scenes described in the book. experience encounters similar to those recorded by the author, and during the 130 days they are away, will call at 22 ports in 24 different countries.

For those who do it in a practical text book.

## OLD TIMERS' BALL AGAIN TO BE SOCIAL EVENT OF SEASON

Judging from the keen interest being taken by the different committees and the progress so far made the Old Timers' celebration, planned for December 7th, will be bigger and better than ever before. So far time and their friends are expected to attend.

Last Friday evening an enthusiastic meeting of committee members was held in L. Michael's office and final plans drafted. The hall and club room have been secured for the great event. There will be a meeting of the Old Timers' Association in the Club Room at 3.30 p.m. L. Michael is to have a squad of new artists to prepare and suitably decorate the dance hall, and some very novel things may be looked forward to in the way of decorating. Mr. Michael is taking advantage of the Wednesday half holiday on December 5th, while he and his artists work behind closed doors. No pecking will be permitted till the job is finished.

Art Brenner with his orchestra has again been secured to dispense the good old time music. Something additional in the way of extra surprise musical and dance numbers may be looked for.

The banquet committee has arranged with the ladies of the C. W. L. to provide a turkey supper at 6.30 p.m. It is anticipated that fully 50 will participate at the banquet. Members of the Old Timers' Association will have free tickets mailed out to them for both banquet and dance.

The banquet program in charge of John Boyd, president of the Board of Trade, will feature community singing and addresses by the heads of local bodies. It is also intended to have present a permanent Alberta Old Timer as chief speaker.

The advertising committee are on the alert getting out posters and advertising material, tickets, etc. They set the date of Friday, December 7th open for the big celebration.

## PRESIDENT OF U.G.G. SPEAKS OF RECENT BEAR RAID

R. S. Law, president of United Grain Growers Limited, issued the following statement on behalf of the Board of Directors of the company while in Edmonton for the annual meeting of the United Grain Growers.

"Impartial inquiry and recommendation obviously by the board of grain commissioners, is required to learn if bear raids were made recently on the Winnipeg exchange by outside interests, and if regulation by the ex-

## POULTRY MARKETING SCHEME TO BE VOTED ON

Every poultry producer with a flock of 25 birds or more will be given opportunity to vote for or against the proposed Alberta Poultry Marketing Scheme, and the application of that scheme in the province will depend entirely upon such vote, a statement issued by the Alberta Poultry Marketing Board emphasizes.

Poultry producers are urged by the Board to fully acquaint themselves with the details of the proposed scheme before making their personal decisions. It is pointed out that the petitions condemning the scheme at present being circulated, are mainly from sources whose interests are not identical with those of the producers and the members of the Board are extremely anxious that producers fully satisfy themselves concerning both sides of the question before reaching a decision.

Temporary headquarters of the poultry Marketing Board have been opened at 403 Northern Investment Building, Edmonton. Copies of the marketing plan may be obtained from this office.

All poultry producers are also invited by the Board to register their names and addresses and the number of birds they control, with the Board at the above address, in order that these may be checked against the registered lists now being prepared and thus absolutely insure the opportunity of voting for or against the proposal.

change against such attempts is needed."

Mr. Law said that it is "obvious that such matters are not to be satisfactorily settled by a series of contradictory statements issued to the press or by representation by interested parties made directly to the government."

He declared that the board of grain commissioners "command the respect and confidence of the country, and that the body could be given the status of a commission of inquiry."

Mr. Law said that "the present regulation of grain handling under the provision of the Canadian Grain Act and the board of grain commissioners represents the accomplishment of years of experience and study, and is to be regarded as a substantial and satisfactory achievement. Whatever changes may from time to time be required in connection with grain handling should be based on the solid foundation already established."

Miss M. McEwen, who is attending school in Lethbridge, spent the weekend visiting her parents Mr. and Mrs. Dunstan McEwen.

## HARD COAL

We bought a quantity of Hard Granulated Lump Coal from a mine at Wayne to be delivered at intervals during this winter, at a price that will enable us to sell it for greater heat value than it is possible to get anywhere.

This makes an excellent fuel for furnace or heater, comes in big lumps and is jet black in color, hard and clean burning, and must not be confused with bone coal which comes from the same district.

It will pay you to see this coal. We will have a car on track this week.

## Don't Read This

Unless you are interested in a medicine which has helped over 700,000 women and girls. Take it before and after childbirth, at the change or whenever you are nervous and rundown. 98 out of 100 say, "It helps me!"

### LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Light-weight sheepskin is being turned into a novel product, called wolver leather. In Germany, to be used for upholstery, handbags, shoes, and other articles.

Crops in Sweden this year are reported as "generally excellent."

## WHAT TO DO ABOUT "Acid Indigestion"

A WAY THAT RELIEVES THE CAUSE IN A FEW MINUTES

Many people who think they have "weak stomachs" or "indigestion," doctors say, suffer in reality from nothing more serious than acid stomach. And this common ailment can usually be relieved now, in minutes.

All you do is take familiar Phillips' Milk of Magnesia after meals. This acts to almost immediately neutralize the stomach acidity that brings on your trouble. You feel like a new person!

Try this just once. Take either the familiar liquid "PHILLIPS'" or the new Phillips' Milk of Magnesia Tablets. But watch out that you get the genuine PHILLIPS' Milk of Magnesia. Made in Canada.

ALSO IN TABLET FORM.

Phillips' Milk of Magnesia Tablets are now on sale in all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

W. N. U. 2071

### An Early Pioneer

Joe McKernan Was Third Man To Join The Mounted Police In 1873

Third man to join the old Royal North West Mounted Police when it was formed in Ottawa in the early 70's, James McKernan, 83, died at Edmonton recently.

Mr. McKernan came west in 1873 and was stationed first at Fort Macleod in the territory now in southern Alberta. On October 13 last while thumbing through his leather-bound diary the old-timer came across this entry written 30 years ago: "Mounted guard for the first time at Fort Macleod to-day . . . home, sweet home."

He settled near old Fort Edmonton in 1882 and in 1883 Mrs. McKernan and their four-year-old child took refuge behind the palisades of the fort then fearing Indian attacks in the rebellion, while Mr. McKernan rode patrol duty 50 miles south to warn settlers that the Indians might attack.

He was born in Richmond, Ont.

## If you suffer take advantage of this offer to try KRUSCHEN at NO EXPENSE

Sufferers from rheumatism, sciatica, lumbago, overweight — try Kruschen Salts at our expense. Kruschen has brought relief to millions of people scattered over more than one hundred countries throughout the world. Kruschen rid the body of all food refuse, of all poisons and harmful acids which are the root of your troubles or which may some day bring these afflictions upon you.

Ask your druggist today for the Kruschen Giant Package. This consists of one Regular 75¢ package and a FREE TRIAL BOTTLE. Use the trial bottle first. Use it as prescribed and Kruschen's six natural mineral salts will start you out to a new life. With your internal organs functioning as nature intended, they should you'll find new health and new energy. Try Kruschen today AT OUR EXPENSE, but remember, your druggist has only a limited supply.

### Criticism Often Unjust

The Ottawa Journal criticizes most of us are quick to criticize the police, and our criticism is often unjust. For the miracle of police work, it is organized to-day, is not that so many criminals escape, but that so many are apprehended. The public takes note of the few failures; it forgets the thousands of cases where the police succeed.

## Have You Pimples or Boils?

### Praise Canadian Actress

Norma Shearer Is Complimented For Her English Diction

London drama critics are complimenting Norma Shearer, Montreal screen star, for her English diction.

When it became known that United States motion picture company was filming "The Barretts of Wimpole Street," some fans wrote the newspapers suggesting the king's English probably would be mangled by the American actress chosen to play the difficult role of Elizabeth Barrett.

Then the picture was released in London, with the Canadian actress portraying Miss Barrett. The critic for The Daily Mail suggested in his columns that Miss Shearer's accent should be studied by some of the British stars.

### Russia's Giant Gun

"Big Lenin" Made By Creators Of Germany's "Big Bertha"

Batteries of a new gun named Big Lenin, which has a range of twenty-three miles, have been mounted by the Russians at Vladivostok.

It is claimed that this weapon outranges by seven miles the heaviest armament in Japan's capital ships.

A mobile battery mounted on trucks can be moved to different points on the railway.

The gun is forty-two feet long, and has a special cooling apparatus which enables rapid fire without overheating.

The size of the projectile and the explosives used are carefully guarded secrets.

The gun is the work of German experts, some of whom were responsible for the creation of "Big Bertha", the weapon used to shell Paris at seventy-six miles range.

## FALSE TEETH

Dr. WERNET'S POWDER

Would you like false teeth to fit so firmly yet comfortably they feel natural—eat, shout, laugh—all day long you can forget about them. Simply sprinkle on Dr. Wernet's Powder—prescribed by world's foremost dentists—the one powder that assures 100% secure comfort. SPECIAL FEATURE—comfort—no pain—no soreness—always keeps mouth clean and sanitary. Inexpensive—any druggist.

A noted French perfumer died recently, and among his effects was found a document in the form of a will leaving recipes, formulas, ideas and suggestions for perfumes, lotions, creams, to keep the laboratory staff busy for years.

## SOURD ON THE WORLD?—THAT'S LIVER

### Wake up your Liver Bile

No Calomel necessary

Many people who feel sour, sluggish and generally wretched make the mistake of taking Calomel. Calomel is a powerful purgative, but it does not cleanse the liver. It only moves the contents of the bowels. The liver is the source of bile, the daily life-giving liquid which flows into the stomach. What you need is to wake up your liver bile. Start your liver bile flowing. Give your stomach a good dose of the daily life-giving liquid which flows into the stomach. What you need is to wake up your liver bile. Start your liver bile flowing. Give your stomach a good dose of the daily life-giving liquid which flows into the stomach.

### Seem To Have No Limit

Japs Hold First Place For Inventive Genius And Imitation

Our good friends the Japanese appear to have no limits so far as inventive genius is concerned. They have apparently discovered the secret of applying it to the imitation of anything that can possibly be manufactured in their own land. They have given the world bamboo fountain pens for a few cents; they have produced silk socks for a few cents; they have exported millions of parasols for a few cents. Now they are shipping tens of thousands of spare automobile parts for a few cents apiece.—Montreal Star.

Commercial canning is one of the oldest of the larger organized industries in Canada. Napoleon is credited as the originator of using airtight containers for army rations, but the development of the industry is international. In 1859, in France, Francois Appert found that food put in airtight containers required to be sterilized; an Englishman invented the tin can, and North America practically made canning the great industry it is to-day.

Brazil, with an area of 3,176,358 square miles, has a population of 39,800,000.

Cottonwood, Texas, has a well in the middle of its main street.

### Shooting The Fog

Secret Chemical Makes Air Clear In Few Seconds

Lightning raids on fog are foreshadowed by a secret chemical to which a trial was given recently. When a typical pea-soup specimen loomed up, engineers, having mounted their "guns", an array of centrifugal pipes suspended thirty feet horizontally above the ground fired streams of this liquid into its midst. In a few seconds a clear path was blazed in the gloom, and while the chemical attack lasted, every fog particle, as it came within range of 2,000 feet, was brought to earth in the form of water. It is anticipated that aerodromes will be among the first to install this new fog-clearing equipment. Already thousands of pounds are expended annually on special fog signals and guidance signs.

### Learning To Fly Again

Colonel Bishop Is Making New Acquaintance With Controls

There is a pleasant tinge of surprise in the report that Colonel W. A. Bishop, the Canadian aviator who destroyed a large number of enemy aeroplanes during the war and was awarded the V.C., is now learning to fly at Montreal. Apparently the Colonel was one of those who returned from his victories more or less to his Sabine farm. It is said that he has not taken a machine into the air since 1922, and he feels that somebody had better be looking over his shoulder while he comes to terms with the controls again. Well, it is a wise bird that knows when to return to the nest.—Glasgow Herald.

The month of October seems the end of harvest in the northern hemisphere (Northern Canada, Alaska, Northern Russia, Sweden, Finland, and Norway) and the beginning of harvest in the southern hemisphere, November is the harvest month of Peru and South Africa; December that of Burma and Argentina, the harvest of the latter being carried on throughout January, which is also the harvest month of Uruguay, Chile, and Australia.

## Even Rheumatic Pains Eased Fast Now!

BAD HEADACHES, NEURITIS PAINS OFTEN  
RELIEVED IN MINUTES THIS WAY

Remember the pictures below when you want fast relief from pain. Demand and get the method doctors prescribe—Aspirin.

Millions have found that Aspirin eases even a bad headache, neuritis or rheumatic pain often in a few minutes!

In the stomach as in the glass here, an Aspirin tablet starts to dissolve, or disintegrate, almost instant it touches moisture. It begins "taking hold" of your pain.

practically as soon as you swallow it. Equally important, Aspirin is safe. For scientific tests show this: Aspirin does not harm the heart.

Remember these two points: Aspirin Speed and Aspirin Safety. And, see that you get ASPIRIN. It is made in Canada, and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin tablet.

Get tin of 12 tablets or economical bottle of 24 or 100 at any druggist's.

### Why Aspirin Works So Fast

Drop an Aspirin tablet in a glass of water. Note that BIL-FOLIE touches the bottom. It is dissolving.

IN 2 SECONDS BY STOP WATCH

An Aspirin tablet starts to disintegrate and go to work.

What happens in those glowing moments? BIL-FOLIE starts "taking hold" of pain a few moments after taking.

When in Pain Remember These Pictures  
ASPIRIN IS THE TRADE MARK OF THE BAYER COMPANY, LIMITED

Automobile tires nowadays commonly run from 15,000 to 25,000 miles, compared with 3,000 to 4,000 miles, which was the life of a tire before the war, says a British writer.

## Remarkable New Aid in Avoiding Colds—Samples Free at Local Druggists

Every Family in This Locality Offered a Free Trial  
Of Vicks Va-tro-nol For Nose and Throat—Also  
Of Its Ideal Companion, Vicks VapoRub

### RESULT OF RESEARCH

New Aid in Preventing Colds  
Leads to Plan for Better  
Control of Colds

### PLAN EASY TO FOLLOW

Years ago, Vicks VapoRub introduced the modern method of treating colds. Now, Vicks Chemists have developed the ideal companion to VapoRub—Vicks Va-tro-nol—the new aid in preventing colds.

These two preparations, together with a few simple rules of health, form the unique Vicks Plan for Better Control of Colds. The helpfulness of Vicks Plan in reducing the number, duration and dangers of colds has been clinically tested by practicing physicians. (The Plan is fully explained in each Vicks package.)

Here, briefly, is how Vicks Plan works:

**To Help Prevent Colds**

Watch yourself and children after exposure to any condition apt to be followed by a cold—such as: Contact with others having active colds—crowded public places, stuffy ill-ventilated rooms—sudden changes in temperature, wet or cold, or unaccustomed exposure to cold air—any such thing which lowers resistance, such as over-eating, smoking, or drinking—after a hard day when you are over-tired.

### Farming Of The Future

Some One Foresees It Will Be Just  
Button-Pushing

Brightly conspicuous among the prophets of agricultural doom is one who foresees, as he thinks, a future of ease and plenty for the farmer. Particularly does he dwell on the prospective ease. The farmer, he says, will sit on his front porch and get his work done merely by pressing a button.

That the farmer will press a button is within the realm of possibility, but that he will sit on his front porch to do it passes belief. The prophet takes his forecast on a misconception of the farmer's nature.

The farmer is by heritage and training an exceedingly active man. He rises with the sun to milk and feed before breakfast; all day he is in the fields cultivating corn, pitching hay, chopping wood and digging potato holes; and his last chore is not finished until he locks the henhouse door after dark and tramps upstairs to bed. He is incessantly on the go.

Then, if you have that stuffy, sneezy, irritation in the nasal passages where most colds start, use Vicks Va-tro-nol at once—just a few drops up each nostril. Used in time Va-tro-nol helps to prevent many annoying colds and to throw off colds in their early stages.

### To Help Shorten a Cold

If a cold has developed or strikes without warning, apply Vicks VapoRub over throat and chest at bedtime. Through the skin, VapoRub acts direct like a poultice. At the same time, its medicated vapors are inhaled with every breath direct to the inflamed air-passages. This combined double action through the skin loosens phlegm—softens irritated membranes—eases difficult breathing—helps break congestion.

"During the day—any time, any place—use Vicks Va-tro-nol every few hours as needed. This gives you full 24-hour treatment without the risks of constant internal dosing, which so often upsets the digestion—especially of children."

### Trial Packages Free

Your druggist has free combination packages containing trial sizes of Va-tro-nol and VapoRub—also folder telling how these twin aids to fever and shorter colds are used. Vicks Plan for Better Control of Colds. Ask for yours today, as your druggist's supply is limited.

The only time he sits on the porch is a few minutes after supper when he slips off his shoes to rest his feet.

Accustomed as he is to energetic motion the farmer will not be quickly weaned away from it. A time may come indeed when he will do his work by pressing a button. But he won't sit on any porch. Possibly he'll have a wireless hookup or a portable button attached to a cord, and press it while wallowing a ball around a golf course.—Kingston Whig-Standard.

### A Queer World

Just after being accosted for a nickel to buy a cup of coffee one reads that the Brazilian coffee crop this year will amount to 26,880,000 bags, of which 11,852,000 bags will be destroyed to keep down the supply. Isn't it a queer world? Or is it the people?

At the Massachusetts Institute of Technology, a clever adaption of the electric eye counts automobiles entering the grounds and takes no note of pedestrian traffic.

In addition to the new Purity Flour Cook Book, sent postpaid for fifty cents, PURITY FLOUR now offers a new recipe file, containing eight convenient attractively illustrated envelopes ideal for filing recipes from friends or clipped from newspapers. Sent at cost of only 25 cents, or combined with the Cook Book for only 60 cents. Write for your copies today, to Dept. 600, Western Canada Flour Mills Co., Limited, Toronto, Winnipeg, or Calgary.

Here's a tasty table delicacy for the Fall of the year—Apple Roll, made just at the season when firm, flavorful apples are at their finest. It's better too, when it's made with Purity, the high quality all-purpose flour. In specialties, as in staple baking, such as bread, rolls, pies and cakes, you'll find PURITY products always uniform.

Western Canada hard spring wheat from which it is milled is selected personally by PURITY FLOUR representatives. Its quality is maintained always at the same high level. Guesswork is eliminated, and when you use PURITY FLOUR you'll find that one brand, and that PURITY, is all you need for all your baking.

BEST FOR ALL YOUR BAKING

### Mysterious Disappearances

Cases Listed Where People Have  
Vanished, Leaving No Trace

An English journal discussing mysterious disappearances mentions two outstanding cases that occurred in the United States.

In 1913 Ambrose Bierce, the author, walked out of his club in Washington and has not been seen since.

On the morning of December 10, 1913 Dorothy Arnold, the 25-year-old daughter of a wealthy New York scent importer, left her home to do some Christmas shopping and vanished. In 1921 the wife of a farmer in Connecticut caused a sensation by saying that she was Dorothy Arnold. But she said: "I have to go again" and again disappeared as if the earth had swallowed her. For eight years thereafter and until her death in 1929, Dorothy's mother spent large sums of money in a vain search to locate her.

The case of Ambrose Small, who disappeared in the middle of the afternoon in Toronto on December 2, 1919, must be ranked among the most mysterious of cases. He was a well-known business man, he had sold the Grand Opera house, a chain of theatres on the day of his disappearance and had banked the money. He is supposed to have been last seen by his lawyer in his own office after all the business had been completed, and no trace of him was ever again seen. He just disappeared in broad daylight in the centre of downtown Toronto.

In each of these three cases there is certainly an explanation if one could learn what it is or was. But the facts will probably never be known.—Toronto Star.

### Extending Air Service

Weekly Service Between Bermuda  
And New York To Be Inaugurated Soon

Arrangements have been made with the British air ministry and the government of Bermuda for the start of a weekly air service between New York and Bermuda as soon as the necessary equipment is available. It is stated in the annual report of Imperial Airways.

In this new venture the company will co-operate with Pan American Airways of the United States.

The report also says expansion of the main route from Singapore to Brisbane, Australia, will be in effect in December. This service, from London to Australia, will be the longest air line in the world, roughly 12,000 miles.

A huge increase in mileage flown during the year ended in March is reported, the total being 2,354,176 miles.

### Could Not Be Done

Uncle Tom: "So that's the baby?"  
Father: "Yes."

Uncle: "I hope you'll bring him up to be a conscientious, upright young man."

Father: "I'm afraid that'll be difficult."

Uncle: "Pshaw! As the twig is bent so is the tree inclined."

Father: "Yes, but this twig is bent on being a girl, and we're inclined to let it go that way."

### Pays Tribute To Explorer

Sweden Opens Museum In Memory  
Of Professor Andree

Sweden remembered Prof. Salmon August Andree, famed Arctic explorer, again on the 80th anniversary of his birth.

A new Andree Museum, containing diaries, photographs and numerous relics of his ill-fated balloon expedition, was opened, as the drama of the finding of his body, 33 years after he and two companions floated away to the North, was recalled.

Ashe of Andree and the two men who died with him, Nils Strömberg and Knut Franckel, will be given formal burial sometime this winter in North Cemetery at Stockholm. They were cremated after their discovery in 1930.

### Bigger And Better

Ocean Liners Have Become Last  
Word In Luxury

The new Cunarder is bigger than ever before, and there is no reason to think that it is any less luxurious. Shall we hear of it the story told of one of its fore-runners, also the "last word" of the day? On the day of departure the captain, ascending a gangway, met a venerable but unknown figure wearing the company's cap and uniform. "Are you of the ship's company, my man?" "I am, sir." "What is your rating?" "Please, sir, I'm the ship's gardener."—London Observer.

An ancient well, 230 feet deep, was discovered in Palmyra several months ago, relieving drought in Palestine.

## Great RADIO INVENTION for UNWIRED HOMES!

● A marvelous new source of radio power—brings a new type of radio—with the quality of the finest electric set you have ever heard—and electric set convenience!

### AIR-CELL RADIOS

● Are built to operate with the new EVEREADY Air-Cell "A" Battery, an amazing electrical unit that re-energizes itself for at least 1000 hours—which, at 3 hours a day is almost a year's service in the average household.

### NO MORE RECHARGING

● You have no more battery recharging. Every program comes through clear as a bell for the entire life of the Air-Cell Battery.

But don't confuse the new Air-Cell Radios with ordinary battery-powered sets. They are as unlike the old sets as anything can possibly be. They are new in perfect reception—new in easy operation—new in low upkeep cost.

Air-Cell Radios are now being built by all radio manufacturers—designed specially for the EVEREADY Air-Cell "A" Batteries. Ask any dealer for a demonstration—your interest will be well repaid.

### Weekly Newspaper Association

Successful Convention Of Saskatchewan  
Section Held In Regina

A well attended convention of the Canadian Weekly Newspaper Association (Saskatchewan section) was held in Regina on October 26. Mr. H. Gamble, publisher of the Advance, Gull Lake, was elected president for the ensuing year.

Mr. Gamble has been a member of the association for 17 years. Born in Cumberland, England, he served his apprenticeship in the printing trade in the Old Country and came to Canada in 1905. He has been connected with the Gull Lake Advance since 1915.

Mr. Gamble succeeds Donald C. Dunbar, veteran proprietor of the Estevan Mercury, whose 40 years of newspaper experience has won for him the title of "Dean of western journalism". Mr. Dunbar was elected honorary president.

S. N. Zings of the Wapella Post, another veteran of 37 years of Saskatchewan newspaper work, was elected vice-president, and S. J. Dorman, Alameda Dispatch, was re-elected secretary-manager of the association for the twelfth year in succession. Mr. Dorman was given a vote of thanks by association members for his services during his years as secretary-manager.

Appointed as this year's executive were S. N. Wynn, Yorkton Enterprise; C. W. Holmes, Rosetown Eagle; O. D. Stitt, Radville Star; H. Berryman, Blaine Lake Echo; J. O. Vogni, Davidson Leader.

When automobiles travel at speeds in excess of 40 miles an hour more power is required to overcome air resistance than road resistance. More power is also required to overcome accident resistance.

"What is agriculture?" asked the teacher.

"Well," responded the pupil, "it's just about the same as farming—only in farming you do it."

W. N. U. 2071

I'll  
TELL YOU HOW  
TO COOK  
CAULIFLOWER  
without the neighbors knowing it

Wrap it in Canapar cookery parchment. Seal in the aroma, flavor and goodness all at once. Cook your boiled or steamed FISH in Canapar. Line your roasting pan with it. It prevents fats and juices from burning and makes the meat more tender.

Canapar saves fuel . . . improves food . . . and eliminates scraping and scouring of pots and pans. You can use Canapar over and over again. It will not absorb odors. It makes a wonderful dish cloth, being silky and very tough when wet. Doesn't shed lint.

## Town & District

Saturday afternoon commencing at  
1 o'clock T. H. Beach will auction off  
all the dry goods in the store of W.  
R. Harrison. Mr. Harrison is quitting  
business in Gleichen. The grocery de-  
partment will be continued by Adolph  
Guttrath.

The officers and members of Gleichen  
branch of the Canadian Legion  
wish to thank all those who helped  
in making the dance Friday night and  
Poppy Day the great success it was.

The Royal Arch Masons entertained  
to a social evening Tuesday. The  
evening was spent in playing bridge.  
After cards a delightful supper was  
served. Miss M. Michael entertained  
the crowd twelve with recitations which  
was much appreciated. Later Messrs.  
Beach, E. Taylor, Michael, Harrison and  
Taylor entertained for a half an hour  
by putting on a degree, after which  
dancing took place.

Have your photograph taken at the  
Gleichen Pharmacy on Saturday, Novem-  
ber 17th. Enquire at the store for  
further particulars.

Mr. and Mrs. N. A. Riddell an-  
nounce the engagement of their  
daughter, Florence Margaret Ann  
Holland to John Raymond (Jack), son  
of Mr. and Mrs. A. F. Wilson, of Gleichen.  
Wedding to take place in December.

Poppy Day was held Saturday by  
the Girl Guides under the leadership  
who had charge of the selling. It was the  
most successful Poppy Day ever held  
here, when the Guides sold approxi-  
mately \$50 worth of flowers.

Miss Megarry, E.N., of the St.  
Paul's School, Carleton Place, was in town  
Monday renewing old acquaintances.  
Miss Megarry is on her way back  
from Ottawa where she was invest-  
ed as a Serving Sister in the Order of  
St. John's of Jerusalem. Sometime  
ago the I. O. O. E. at Leithbridge hon-  
ored Miss Megarry by naming the  
Chapter after her and is called the  
Jane Megarry Chapter of the I. O.  
O. E. Miss Megarry hails from Ulster  
where her relatives and friends  
on that side of the water will be glad  
to hear of all the honors bestowed on her.

## DR. F. W. GERSHAW SPEAKS TO LOCAL AUDIENCE

A meeting in the interests of Dr.  
Gershaw was held in the Community  
Hall last Thursday evening. The doctor  
spoke for about an hour and a  
half on the leading questions of the  
day, to an audience of approximately  
200.

The speaker stressed the benefits  
derived from beet sugar factories and  
stated he had consistently advocat-  
ed legislation promoting the con-  
struction of such units in irrigation  
areas.

The unemployment question, taxa-  
tion, relief projects and high and  
low tariffs all came in for discussion.  
Dr. Gershaw explained the new Cen-  
tral Bank, as well as the mass buying  
inquiry. He also stated that he favored  
old age pensions and unemploy-  
ment insurance.

T. H. Beach, president of the local  
Liberal Association, occupied the  
chair and introduced Dr. Gershaw by  
a few humorous remarks as to the  
political tendencies of the day. Dr.  
Gershaw is the Liberal member for  
Medicine Hat constituency in the  
Federal house.

## OBITUARY

MRS. A. T. ROBINSON

Mrs. A. T. Robinson who has resided  
in Gleichen for the past seventeen  
years died Sunday afternoon at the  
age of 68. For sometime past she  
had not been enjoying the best of  
health and her rather sudden demise  
came as a profound shock to her  
many friends. Mrs. Robinson was  
born in the State of Kansas and in  
December of 1899, at Seward, Okla.,  
was married to Adlai T. Robinson.  
In 1917 with her family she came to  
Gleichen and has resided here ever  
since. She was an active member of  
the local Baptist church. Besides  
her husband she is survived by  
three children, two daughters and a  
son, namely: Mrs. W. Plante; Mrs.  
Allen Harte, and son Albert William.  
She also has four sisters, Mrs. E. Cox,  
and Mrs. W. Cox of Okla., Mrs. M.  
Berger of Kansas and Mrs. N. Bow-  
down also living in the States; four  
brothers, O. Berry, of High Prairie,  
Alta., Oliver, Willie and Adrian all  
residing in Oklahoma.

The funeral services which was  
largely attended took place at the  
family residence at 2 o'clock Tuesday  
afternoon, with Mr. Phillips of Cal-  
gary conducting the services. Interment  
took place in the Gleichen cem-  
etery.

## To Be Relied On

In long experience with United Grain Growers  
Limited in selling their grain and in buying farm  
supplies, not only shareholders but all farmer cus-  
tomers have learned that this is an organization  
that is to be relied on.

Both the Company's facilities and its purpose  
to give the best possible service to the farmers are  
unsurpassed.

Deliver your grain to

UNITED GRAIN GROWERS LIMITED  
Elevators at: Gleichen, Arrowwood, Shadok, Cluny, Namaka.

The Armistice dance last Friday  
evening was a huge success. Veler-  
ans and their friends from as far a-  
way as Milo being present. The music  
was excellent and no doubt had much  
to do with the enjoyment of the even-  
ing.

All the Gleichen school teachers at-  
tended the teachers' convention in  
Calgary last week.

The two people who make it hottest  
for you are a woman who can't have  
her own way and a reformer who  
can.
